## Mobile Phone Insurance - Why Buy From Us

We believe that you should have choice, so unlike the majority of low cost mobile phone insurance companies in the uk we do not tie you to a 12 month contract and yet offer a low cost mobile phone insurance.

You can cancel your insurance anytime after 3 months. We are proud that our low cost mobile phone insurance cover is so good and flexible, with more cover than any other company, that hardly anyone cancels our low cost mobile phone insurance.

We also believe that again unlike the majority of low cost mobile phone insurance companies, that you should be rewarded for being careful with your mobile. The majority of low cost mobile phone insurance companies will give you low cost mobile phone insurance cover for your monthly payment, but give you nothing back if you take care and do not make a claim.

We believe that is wrong and you should have a reward for taking care of your equipment and not claiming. As such we will:-

-

After 12 months you will receive a free battery worth up to £82.

-

After 24 months you will receive a free upgrade to the latest handset

(subject to Terms & Conditions)

In addition ALL claims which are made will be completed within 48 hours (subject to Terms and conditions) AND our low cost mobile phone insurance policies protect you against everything.

No longer will you have to worry or wonder what you have to do if you have your phone stolen, lost or damaged, we can take that worry and stress off you, leaving you to get on and enjoy life with low cost mobile phone insurance.
